

# Steps to Configure Internet Explorer 11 for Army OneSource

To access Army OneSource using Microsoft browser Internet Explorer Version 11, the site needs to be added to the browser's **Compatibility View List**, otherwise some pages will be blank. Follow these steps to do that:

1. Go to [www.myarmyonesource.com](http://www.myarmyonesource.com), the Army OneSource home page.
2. Access Internet Explorer's tools (click on the gear icon in the top right corner of the browser window or the Tools option in the browser menu) and select the "Compatibility View settings" option.
3. Click the Add button to add **myarmyonesource.com** to the Compatibility View list.
4. Click the Close button.

All pages on the site should then be fully displayed in Internet Explorer 11.
